Allegro MicroSystems Appoints Ian Kent, Senior Vice President, Operations and Jamie Haas Vice President, Chief Technology Officer

02/03/2026

MANCHESTER, N.H., Feb. 03, 2026 (GLOBE NEWSWIRE) -- Allegro MicroSystems, Inc. (“Allegro”) (Nasdaq: ALGM), a global leader in power and sensing semiconductor solutions for motion control and energy efficient systems, today announced that the company has promoted Ian Kent to Senior Vice President, Operations and Jamie Haas to Vice President, Chief Technology Officer.

“As we sharpen our focus on executing our long-term strategy, it is critical to backfill key roles within Allegro’s senior leadership team. These promotions are the result of thoughtful consideration, including my own experience overseeing worldwide operations and technology development. This transition reflects both continuity and strength in leadership,” said Mike Doogue, Chief Executive Officer. “Ian and Jamie are the right leaders to drive our company forward. I am incredibly confident in this team's ability to achieve our strategic goals and lead us into the future.”

Ian will be responsible for Allegro’s worldwide manufacturing, quality, and supply chain operations, including internal and external manufacturing and our assembly and test facility in the Philippines. He assumes responsibilities previously overseen by the CEO and brings deep operational continuity to this role. In addition to 25 years of experience in semiconductors, since joining Allegro in 2023, Ian has held progressively senior operations leadership roles, most recently serving as Vice President, Operations, with responsibility for global manufacturing excellence and supply chain execution.

As Vice President, Chief Technology Officer, Jamie will lead Allegro’s technology vision, strategic technology development, and AI product and tool strategy, assuming CTO responsibilities previously overseen by the CEO. Jamie brings 25 years of semiconductor design and development experience, including over 20 years at Allegro, and has been instrumental in advancing next-generation technologies aligned with our ‘Innovation with Purpose’ strategy. His expertise and vision in AI and machine learning will be instrumental as Allegro evolves its product roadmap and enhances its chip development processes by using transformative AI capabilities, while simultaneously accelerating market-leading innovations for our customers.

About Allegro MicroSystems

Allegro MicroSystems, Inc. is leveraging more than three decades of expertise in magnetic sensing and power ICs, to propel automotive, clean energy and industrial automation forward with solutions that enhance efficiency, performance and sustainability. Allegro’s commitment to quality drives transformation across industries, reinforcing our status as a pioneer in “automotive grade” technology and a partner in our customers' success.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, contained in this press release including statements regarding our business strategy, growth opportunities, leadership priorities, and product and technology development are forward-looking statements.

Without limiting the foregoing, in some cases, you can identify forward-looking statements by terms such as “aim,” “may,” “will,” “should,” “expect,” “exploring,” “plan,” “anticipate,” “could,” “intend,” “target,” “project,” “would,” “contemplate,” “believe,” “estimate,” “predict,” “potential,” “seek,” or “continue” or the negative of these terms or other similar expressions, although not all forward-looking statements contain these words. No forward-looking statement is a guarantee of future results, performance or achievements, and one should avoid placing undue reliance on such statements.

Forward-looking statements are based on our management’s current expectations, beliefs and assumptions and on information currently available to us. Such beliefs and assumptions may or may not prove to be correct. Additionally, such forward-looking statements are subject to a number of known and unknown risks, uncertainties and assumptions and other important factors, and actual results may differ materially from those expressed or implied in the forward-looking statements due to various factors, including, but not limited to, those identified in Part II, Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended March 28, 2025, as any such factors may be updated from time to time in our Quarterly Reports on Form 10-Q and our other filings with the Securities and Exchange Commission.

All forward-looking statements speak only as of the date of this press release, and except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements, whether as a result of any new information, future events, changed circumstances or otherwise.
